## 04 EMPLOYMENT HISTORY

Mar 2023 — Nov 2024

Chandigarh

### Front End Developer at AppCore Labs India Pvt Ltd

Project: **Filejet**, <https://filejet.com/> & <https://filejet-redesign.vercel.app/>

Filejet's entity management software organizes & files all of your entity reports: every year, in every jurisdiction – with total visibility.

Utilized HTML5, CSS3, BOOTSTRAP-5, ES6, SCSS, and JavaScript to create a dynamic dashboard & Implemented a complex interactive user interface that improved user experience, ensuring high performance and responsiveness.

Collaborated with UX/UI designers to translate design mockups into functional web pages.

Aug 2021 — Mar 2023

Bangalore

Worked closely with backend developers to integrate front-end components and troubleshooted and debugged UI Components to resolve issues and improve performance.

## UI Developer | GoProtoz at Innovative UI/UX Design Company

Project: **PM Connect** | <https://pmmainview.netlify.app/dashboard.html>, **Palyfieldrepo** | <https://playfieldrepo.netlify.app/>, **UpgradCampus** | <https://college.upgradcampus.com/>, **SONY India** | <https://sony-website.netlify.app/>, **GetMyBooks** | <https://getmybooks.netlify.app/>

Developed a custom and Interactive Dashboard and many websites that increased user experience. By Using tech stack like HTML5, CSS3, BOOTSTRAP-4,5 and React.js.

Collaborated with designers to ensure designs were efficient, interactive, responsive across browsers & mobile friendly, and technically sound.

Implemented a mobile-first approach to existing websites and conducted A/B testing to identify bugs and UI improvements.

Optimize frontend performance to ensure fast loading and smooth user interactions. Implement best practices for web accessibility (WCAG) and cross-browser compatibility. Maintained high-quality coding standards, documentation.

Apr 2020 — Apr 2021

New Delhi

## Web Developer at Proof Of Performance Data Services

Project: **National Informatic Center** | PANI Portal | <https://pani.iwai.nic.in/>

This project is all about government NIC project called as PORTAL FOR ASSETS AND NAVIGATIONAL INFORMATION PANI is a digital service by IWAI that provides key systematic and aggregated River and Navigation information related to National Waterways in India for facilitating the transportation of cargo and other vessels through National Waterways.

Develop and maintain frontend components for websites and Dashboard using HTML5, CSS3, BOOTSTRAP, and JAVASCRIPT and media query for mobile responsive.

Work closely with backend developers to ensure seamless integration and data flow. Ensure that responsive design and mobile-first principles are consistently applied.

Apr 2019 — Apr 2020

New Delhi

## Front End Developer at RedGrape Technologies

Project: **JRHU** | <https://jrdu.ac.in/>

The Jagadguru Rambhadracharya Divyanga University was established to provide higher & professional education to persons with disabilities. There are approximate 9 crore disabled in India. The coverage in formal school system is around 5%. The scenario of higher education is much grim.

Developed JRHU website by using tech stack Wordpress with elementor and HTML, CSS for UI customisation and maintain JRHU dashboard using HTML CSS BOOTSTRAP and Javascript.

Work closely with backend developers to ensure seamless integration and data flow.

Optimize website performance to ensure fast loading and smooth user interactions.

Implement best practices for web accessibility (WCAG) and cross-browser compatibility.

Ensure that responsive design and mobile-first principles are consistently applied. Maintain high-quality coding standards, documentation.

Jan 2018 — Apr 2019

## Web developer at Bhooma education Pvt Ltd

Project: **EMAAR** | <https://emaar-mall.netlify.app/dashboard> , <https://hindustanexchanger.in/> , <https://unitedcorrespondencecollege.in/>

Developed and maintained the dashboard and website by using tech stack Wordpress and HTML CSS bootstrap. for seamless user experience and mobile friendly across browser compatibility.

Dec 2024 — Present

Remote

## Freelance | Contarct at Goprotoz | Tamfri

Project: **coverB** | <https://coverb-gpz.netlify.app/main-index.html> , **KonfigAI** | <https://konfig-ai.netlify.app/> , <https://freshfrutos.com/> , <https://sophiacollege.ac.in/> , <https://sophiaonlinecollege.com/>

After I left my current organisation Appcore Labs India Nov 2024, I started contract work with Goprotoz and some freelance work.

I developed website and dashboard for **coverB** Client by using HTML, CSS bootstrap tech stack website <https://coverb-gpz.netlify.app/main-index.html> and for **KonfigAI** client used tech stack Reactjs for reusable components and seamless user experience and high performance of website.
